MEDICAL.

DR. JOHN BULL'S Compound Pectoral of Wild Cherry,

For the complete Cure of Coughs, Colds, Asthma, Bronchitis, INFLUENZA, PAINS IN THE SIDE AND BREAST, SPITTING OF BLOOD, AND CONSUMPTION,

Is rapidly advancing in the estimation of the public. It is no empirical nostrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe of an experienced and talented physician, and has proved itself to be the greatest remedy for all diseases of the greatest remedy for all diseases of the Lungs ever discovered; and wherever it has been introduced it has made cures It has been introduced it has made cures which are perfectly astonishing. It is bound to supersede every other Cough Medicine before the public. Testimonials are daily being sent in to the proprietor, of cures effected even after physicians had abandoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year of Consumption, or some other disease of Consumption, or some other disease of the Lungs? Because they neglect its sure forerunner—a "simple cold,"—which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Compound Pectoral of Wild Cherry." We say, therefore, Try it, by all means. It this does not cure you, nothing can. you, nothing can.

Sold by all Druggists everywhere. All Orders from Wholesale Purchasers, or applications for Agencies, must be addressed to DR. JOHN BULL,

DR. WM. PRICE

TENDERS to the public and warrants the certain and effectual cure of the following diseases:
Scrofula, Cancer, Piles. Sore Eyes, Chilis, Chronic Diarrhoea, Syphilis in all of its stages, Fisula, without using the kinife or other painful remedies.

And I remove the horrid consequences of Onanism or Self Pollution. I can cure these diseases, and have proof to sustain this. The statement of such men as Dr. Wm. L. Brecklinridge, Judge Graham, Judge Loving, Judge Underwood, "and many others too numerous to mention."

We have read the above card of Dr. Price, and so have read the above card of Dr. Frice, and some have known him long, and all of us have noticed access which has attended his efforts in curing the e-named classases, and we do not hesitate to add settimonial of our unqualified approval of what een said by the highly reputable gentlemen above with

TO THE PUBLIC. TO THE PUBLIC.

TO ALL attention to the notice of the Peoria Insurance Company from the Chicago Daily Press and Tribune, which notice was voluntary on the part of the editors, who know what they say to be true. Such evidence must put to blush the petty malice aimed at the Peoria Insurance Company by some malicious slanderers of our city. The Company has a paid capital of \$300,000, and a surplus of \$52,000. This surely is a sufficient guaranty to all who will insure. Its business is very large and reliable. Reference to the on'y loss in Louisville for the last 12 months in the card of Wm. Musselman. I hereby interest of the control of the underwriters of this city, but free and untrammelled. Risks taken on my own judgment, and if any loss occurs, it will be paid ny own judgment, and if any loss occurs, it will be paid promptly. Marine policies issued and 10 per cent. pre nium retained on all insurance, to be settled by note every six months.

Agent of the Peoria Fire and Maribe Ins Co.
At the office of J. B. McIlvaine & Son, No. 382 Main reet, 1 door below Seventh. Louisville, Feb. 21, 1859.

OUR tobacco factory was very near being destroyed by fire on the night of the 7th of January, on Main, near Ninth streets. The roof being partially burned, our boxes under press were removed in the street, and were partially damaged by the water and rough handling of the boxes. Mr. J. B. Mellvaine, the agent of the Peoria Insurance Company, came very promptly and ordered the roof to be repired, &c. Arbitrators were mutually chosen, the damages satisfactorily arranged, and he has this day paid the damages in full, allowing claims for labor in protecting the house from the flames, and for removing the stock out and back into the house. And with promptness on the part of the agent, and on the part of the company in paying losses, I hope to see the Peoria office succeed to a good chare of business in our city.

Leusyille, January 20, 1859. A CARD.

From the Chicago Daily Free Press and Tribune, Feb. 12th, 1859.] The Peorla Marine and Fire Insurance Company.—It is with pride and pleasure that we ask the attention of our readers to the statement of this company in our columns this morning. It is the first detailed exhibit of the condition of any home company that we have ever seen, and compares most favorably with the statements of the best Eastern companies. Such an array of assets, amounting in all to \$352,556 24, shows most conclusively that we have a company in a construction. amounting in all to \$332,556 24, skows most conclusively that we have a company in our own State, as sound and as well managed as any other, no matter where located. As it regards its promptness and liberality in the settlement of its losses, no company has a better reputation. The Peoria Company is doing business in most of the Western and Southern States, including Wisconsin, Mich'gan, Indiana, Missouri and Kentucky, where it is obliged to file an annual statement of its condition and to comply with the same laws that are required of all Eastern companies. The fact that the company can comply with the laws of those States, which are regarded as very onerous by many companies, shows that rarded as very onerous by many companies, shows that that the necessary capital, and as available assets a my other company, being subjected to the same provi ons. The Officers and Directors of this company are men of

icd experience and unblemished integrity, and the suc ess of the company proves that they have the requisite a lifty to manage the affairs of such an institution. One pe culiar feature in this company, which places its stability and permanency beyond a doubt, is, that by provision of its charter, if by any means the capital of \$500,000 should become impaired a single dollar, and should any policy be issued thereafter, the Directors render themselves personally liable for any loss that may occur.—As the Directors would not care to incur such a responsibility, and even if they did, as their aggregate wealth as the Directors would not care to incur such a respon-bility, and even if they did, as their aggregate wealth quite large, the policy holders have an extra protec-ion and safety by this provision of the Charter, which wists in but few if in any other company. Under the excellent supervision of J. Augustus Wright, its efficient d enterprising agent in this city, the company has

AN ATTEMPT AT SUICIDE. - The young man whose ttempt to commit suicide at the Exchange Hotel in this city we noticed Saturday morning, has so far recovered as to be able to walk about th, house. His name is Geo. H. Stillman, of Cincinnati, Ohio, where he is engaged in the photographing business on Fifth s reet, near Race. He is a fine looking young man, between twenty-five and thirty years of age, about six feet high, with dark and long hair and whiskers, and dressed in genteel and fashionable manner.

He can give no reason for the rash act, but emed to have been impelled to it by some of hose uncontrollable and indefinable feelings that o often hurry men to their self-destruction. The ull particulars of this singular case seems to be that, on Tuesday last, he left Cincinnati for Lousville, without any business calling him here, and vithout informing any of his friends of his intenion. He is advertised as missing in the Cincinnati daily papers of Thursday. On Tuesday he arrived here, and engaged a room in the Exchange Hotel, and registered his name as C. S. Henry .-He was shown to room No. 51 third floor, in he most secluded part of the house, which he ocapied Tuesday night and Wednesday. On Wedesday evening he came in slightly under the influence of intoxicating drinks, and proceeded to his room, locked himself in, and after writing, on the margin of a newspaper, a few lines to the proprietor of the hotel, he undressed, got into bed, and then drank about half an ounce of prussic acid. The note to Capt. Combs read as follows: To the Proprietor of the Exchange Hotel—Dear Sir: Will you, on finding me, telegraph to D. R. Hoag, No. 100 Fourth street, or W. J. Jackson, No. 303 Western Row, Cincinnati, Ohio, and

oblige Yours, respectivity, My real name is GEORGE H. STILLMAN. The effect of the poison must have been imnediate and severe, yet it was not until mornng that he was discovered. Several servants, ttracted by his groans, forcibly entered his room, when he was found lying partly out f the bed, with his head hanging to the oor, his right arm raised, with hand hard enched, and every muscle and fibre of his body shaking with convulsions, whilst on his brow iready hung the damp pall of death. On the floor near the bed was the bottle con-

aining the poison, marked "hydrocyanic or prussic acid, of the strength of the U. S. Pharmabout half an ounce of the preparation. A physician was at once called to see him, and

edical skill, assisted by a strong and robust onstitution, robbed death of his prey, and saved he young man from an untimely and disgraceful grave. At his first recovery he expressed his egret at living, but now with the buoyancy of fe and hope in his heart, he rejoices that his readful purpose was not accomplished. Capt. Combs, in compliance with his request

elegraphed to his friends, and they arrived last evening. He owes a debt of gratitude to the proprietor, clerks, and ladies of the hotel, for their and faithful attention.

The Cincinnati Enquirer, of Saturday, says in eference to Mr. Stillman: Stillman was married to a young woman living in the suburbs of the city, some eight months since, and as she had \$30,000 in property, it is said he married her for gain. About two months since he obtained \$1,500 from her on a note, her funds being in the hands of a guardian, which were soon exhausted. He then became quite melancholy, and, it is said, dissipated, and his troubles of late increased, inducing him at last to leave the city unknown, and to endeavor to take

Mrs. Stillman is plunged in grief, and is igno-ant of what to do, but hones her husband will get recover from the fatal effort.

Hall was filled to suffocation on Saturday night to witness the great trial dance between all the champion jig dancers of this city, including some from other points. There were some six or seven entries, and the prize was a silver goblet. Each one acquitted himself admirably, and, in fact, so close was the contest that it was very difficult for the committee to decide who should bear off the palm. The committee of judges consisted of five, and when they retired they agreed that the majority should rule. The vote was taken, which resulted as follows:

Joseph Buckley, 2; Charles Rivers, 2; Learry, one. The latter being then withdrawn, the sec ond ballot stood: Buckley, 3; Rivers, 2. The former was then declared the victor, and

Every one thinks that her singing is good, without being at all remarkable. She sings well enough to satisfy a good judge, and disarms criticism by rarely undertaking very difficult music. We found her better, in every respect, than we had anticipated, for her managers rather apologized for her vocalization, and placed all the stress of their advertising on her manners. Her power certainly lies in action. The instant she commences singing, her whole frame is in motion cious pantomime, which entirely upsets the cal-culations of the most cold-blooded critic. Here is where we acknowledge her superiority, and yield to it, notwithstanding a fair friend has warned us that what we consider natural is all affectationheartless art. But we will not be warned; we still sigh for her, though she make a cypher of us. There were some really good performances from

the bailance of the troupe. Sig. Maggiorotti gave us the best Largo al factotum we have heard for many a day. M'lle Ghioni has a good voice, but is rather impassive in style. Sig. Lozini has a tenor voice of the greatest purity, but fails to make anything like a just impression on his audience, from an entire lack of expression and gesture. Mr. Wollenhaupt is a first class violinist. He did not do himself justice on Friday night, the audience not exactly appreciating his efforts. Secretary Kentucky Association Teachers. To the Families and Teachers of the State: The Association, at its late meeting, decided to issue a family journal, devoted to home and school culture—the first number by the lat of February and the second as soon as one thousand reliable subscribers should be obtained, and regularly thereafter every week. Since the appearance of the first number, subscriptions have been continually coming in, until we are now so well satisfied of its success, that we can promise a second issue at an early day. Only a comparatively an all sum is its success, that we can promise a second issue at an early day. Only a comparatively small sum is now needed for the expenses of the year, and if those who have expressed an interest in its success will enter their names immediately upon the lists at the book-stores, or send them to the Secretary, the paper can go on at once. Every teacher in the State is appointed an agent, and, on obtaining ten subscribers, will receive a copy—free—for one year. for one year. Besides the Editorial Committee, there is a large

Besides the Editorial Committee, there is a large corps of corresponding editors throughout the State; and, since no editor receives a salary, it is only necessary that the paper should pay the expenses of printing, etc.

Besides the original articles upon education, every paper will contain reviews of the best books; translations from the German and French; one or two columns expressly for children; good original and selected tales; a careful summary of the news of the week, and anything that may prove interesting to the family, excluding, however, all that is sectarian, partizan, or exclusively secthat is sectarian, partizan, or exclusively acc-tional.

Great Excitement in a Public School-Cry of Fire

-Children Injured.

[From the Philadelphia Inquirer of Tuesday.]

At four o'clock yesterday afternoon, a scene of excitement occured at the Chester street school, in Chester street, between Eighth and Ninth, and Race and Vine streets, which at one time it was feared would result in the death or fatal injury of

some of the children in the death of latalinjury of some of the children in the building.

It appears that one of the children dropped a piece of gutta percha comb from the upper room through the register into the stove below, causing an immense volume of smoke to suddenly issue into the room. This gave rise to a cry of fire, when the children rose en masse, and rushed in a body for the door, notwithstanding the utmost efforts of the teacher to allay the excitement. The terror stricken pupils rushed pell mell down med up that it was impossible for any one to get into or out of the place.

LUNAR LIGHT

THIS LAMP burns with a pure white brilliant light equal to gas, and is much cheaper than gas. The Luar Light took the first premium at the last Mechanics' Fair in Louisville. One dollar's worth of Lunar oil gives the light of \$3 16 of Lard oil, \$4 36 of Whale oil, \$9 4 iof Burning Fluid, \$14 26 of Candles. Haif a pint burns 15 hours, costing about 5% cents, giving a light equal to 5 or 6 star candles. Lunar oil is not explosive, has no disagreeable smell, and is not liable to smoke. Lamps suitable for all purposes.

Mr. Kennedy said he had been derided as an old federalist, and the men who so denounced him had now on the table two bi.ls more dangerous in consolidating power in the hands of one way. n consolidating power in the hands of one ma than any that ever emenated from the old federal party. They had also a bill to give away the pubhouses to squat thereon, and under an easy fran-chise to control this Government before they know a word of our language or one idea toward a com-prehension of our institutions. Yet, while offer-ing this extraordinary bonus to the discontented spirits of the old world, they refuse and denounce the old soldier's bill. How comes it, he asked, that there is such a diversity in the Democratic party, marching under one banner and profess

ing common principles.

Mr. Kennedy proceeded to ask him if it was possible for us to hold Cuba with but fifty-seven ships in the navy to protect the fifty Cuban har-bors. Our Paraguay armado consists of canal boats and side wheel steamers. Have Senators

Mr. Trumbull appealed to the Senator from Tennessee, Mr. Johnson, to stand by and press the Homestead bill. Mr. Bigler, of Pa., asked Mr. Trumbull, for himself and the Republicans, to name the hour at which they would vote on both measures. Mr. Trumbull said that for himself he was

They could no more run a party without niggers than a steam engine without fuel.

Mr. Doolittle finally declined to withdraw his motion.

Mr. Bigler made another appeal to the Republicans to name the hour for taking a vote, or to come to some other arrangements. To this there was no response, and at midnight business was at a dead lock, and indicated no prospect of an adjournment. Clarke spoke, after which Mr. Doolittle's

As to the selection of Dr. Hunter, and his re ommendation to the office by some of the appli-ants for the agency themselves, the committee ay that the Secretary of the Navy had never been nformed of the arrangement. The previous coal gent, Mr. Tyson, resided at Reading, and had a artner residing at Philadelphia, as the present gent, also residing at Reading, has one at the anne city. Some intimation was made to the resident on this subject, but it was indefinite; ad if the President understood anything about it was merely as to a division of duties, as

The President transmitted a message to the House returning with his objections. Mr. Mor. nephew of Mrs. Toucey; but, in making the ar-angement with that firm, Dr. Hunter swears that e did so without the least intimation, or any re-House, returning, with his objections, Mr. Mor-rill's bill for granting lands to the several States nest, direct or indirect, from the Secretary of as he knows or believes, the Secretary had ither knowledge or wish on the subject. The rate of compensation of the coal agent was xed, during Mr. Fillmore's administration, at e present price, and the present large amount ary all its income, which for the next year is timated at \$50,000,000 from that source. Should e thirty-three States enter into the market with ne Paraguay expedition.

The third branch of the examination relates to

he live oak contracts. Two dealers had live ak on hand—Swift, the most. At the time proosals were issued, the Government had taken steps for the construction of seven new sleops-of-war, and the expedition to Paraguay had been auhorized. Much less time was allowed for the delivery of the timber than heretofore, because it was wanted for use very soon, Some of it, which was immediately needed, was bought up and used the Government before the time for awarding the contracts. The Secretary of the Navy in his pecifications inserted an unusual clause, by which he reserved to himself the right not to ward the contract on the bids of any party unss the price was a fair and reasonable one; so hat if he wished to get the timber of these two men for the use of the Government, he would ow to them and to the world that he did not in end to give them for it anything more than a fair ice. When the bids came in under these prosals, these two men who had the timber (Swift and Jas. Bigler) were not the lowest bidders. Others bid below them, and the contracts were awarded to them. Immediately after the contracts ere awarded the contractors came to Wash magton, and told the Secretary of the Navy that it was impossible for them to comply with the conracts. They knew when they made the bids that they could not get the timber in time, but reied upon getting the time extended for the de-Failing to comply with their contracts, ne latter were declared void. Under the law the stroduced as a party measure, and had received ne sanction of men of all parties in the House.— was a measure near the heart of Washington, Secretary had the right to contract with Swift or any other person, even if he had to give a higher ate than these men proposed to furnsh the timber or, and charge the difference to the defaulting contractors. But Swift came forward and furhished the timber at each and all of the yards at the lowest price bid by any other party. The committee believe that the price was fair, and

that there was nothing in the transaction that in any way impeached the integrity of the officers of the Navy Department. In 1854, while Mr. Buchanan was in England, eo. Plitt, whose wife has some family connection with Swift, entered into a contract or arrangement with Swift, to the effect that he [Plitt] would endeavor to get contracts for him to supply timber, on the condition of receiving 10 per cent. of the gross amounts of all the contracts. Plitt introluced Swift to the Secretary of the Navy and other influential persons, and put him on good re-lations with all his friends. Soon after the Cin-cinnati Convention, Plitt introduced Switt to Mr. uchanan, but merely said that he was an "old ne Whig, and that he had given him [the Presint] a cordial support. Swift, it appears, con-buted freely to the Presidential election. In troducing Swift to Mr. Toucey, Plitt made a nilar remark. This was all that was told to the Secretary or to the President, until some time after the contracts for live oak in September last were awarded to Swift.

Some time in October or November, while Plit was at the White House, he showed the President the agreement with Swift, saying that Swift had refused to carry it out, and asking him if there could be any objection in prosecuting Swift for a non-fulfillment of the agreement of 1854, and the President replied he could see no objection to it, and that Plitt could do as he pleased.

It appears that Swift claims that his contract with Plitt only extended to the end of the last Administration.

ninistration The next and last branch of inquiry was in relation to the awarding of the contracts for the seven sloops-of-war ordered at the last session of Congress. There were seven contracts in all, and in awarding five of them it appears that no political or any other improper influence was resorted to by the different bidders; that the proposals were advertised according to the law; that the leading establishment in New York, Philadelphia, Boston, Baltimore and Hartford, presented bids for each and all of the engines; and that the contracts were in every instance awarded to establishments of high reputation for undoubted melishments of high reputation for undoubted mechanical efficiency. These bids were referred to a board of engineers, consisting of the engineer-in-chief and three chief engineers, and the contracts were given out according to the report of the board—in some cases unanimous, and in others on the recommendation of the majority. Mr. Martin was a member of this board, and is the inventor of a boiler which was included in the plans of all the bidders except two, whose plans were decided on by the board of which he was a member, and the plans which did not include his New York, Feb. 26.—The steamship Black Warrior moved yesterday upwards of 100 feet.—The underwriter agent thinks that she will get off at the next high tide.

All of the plans for real competition included Martin's boilers. The committee find under the state of the case, that no preference could have been given to any plan by Martin on that score, but suggest that it would have been better if he had not been put on that board.

One of the contracts was awarded to Merrick & One of the contracts was awarded to Merrick & Sons. Their bid was next to the lowest of seven; one was only four thousand dollars lower, and some bids about forty thousand dollars higher.—
It further appears that the plan of the bid which was lower was condemned by every member of the board, and the plan of Merrick & Sons was approved by every member of it. Merrick & Sons was approved by every member of it. Merrick & Sons are not politicians, and never undertake to influence their workmen. Two of the three incline to the opposition. In connection with this, a let er from Colonel Patterson to the President

MINORITY REPORT. The statement signed by Mr. Sherman, of Ohio and Mr. Ritchie, of Pennsylvania, refers to the general organization of the bureaus in the Navy epartment, and the expenditure in each bureau nee 1852, but states that the inquiry of the Com-ittee was mainly confined to four branches of

The coal agency was established in the year
50, and the amount of coal purchased in 1858 was 55,000 tons. The compensation allowed was by the cent on the cost of the coal and in freight to inland ports. In May, 1858, some of the appliants met at Washington with their frieads, and agreed that Dr. Hunter, of Reading, Pa., should be divided between Mr. Hunter, Mr. Getz, editor of the Reading Cayette, and Iche. E. Smith of the Reading Gazette, and John F. Smith, of

This agreement was made known to the Presi-lent, and Dr. Hunter was appointed. Dr. Hunter is a practical physician, knew nothing about coal, and did not buy any, but turned the whole busiless over to Tyler, Stone & Co, a firm in Phila-elphia, of which C. Nicholas Beach, a nephew of Ir. Toucey, is a member. This firm bought all e coal for the navy, charging about fifty cents a on more than it cost them, and more than the tarket price, and Dr. Hunter got \$7,453 as his ofits as coal agent, and did nothing. In 1854 swift & Wheeler, of Massa chusetts, made a con rect with George Plitt, of Philadelphia, an inti-nate friend of Mr. Buchanan, that Plitt should aid Swift in getting the live oak contracts. Mr. Plitt was to put Swift on familiar relations with the De-

In the campaign of 1856 Mr. Swift contributed on the campaign of 1836 Mr. Swift contributed to the election in Pennsylvania \$16,000, paying it of Mr. Plitt, as Treasurer of the Democratic State committee. Mr. Plitt did all he could to aid Mr. swift in frequent interviews with the President and Secretary Toucey. In 1857 Mr. Swift got live k contracts to the amount of \$250,000. In ex-ating this contract, he delivered at the navy rds a large amount of timber which was rejectsome because it was not the size required by

In June, 1858, advertisements were issued by e Secretary for 1,850,000 feet of live oak tumber mostly of the sizes and kinds then in the navy yards, belonging to Messrs. Swift & J. Bigler.— The time fixed for the delivery of one half of it was eptember 1st, 1858; the time always before llowed was one and two yea s, and it was impossible for any one to get live oak from the live bak region within the time that the advertisement provided. All competition was, therefore, out of the question, if its terms were enforced, and

The timber of Swift & Bigler then at the navy rd was all the live oak in the market, as it was ot kept by dealers in large quantities, but cut as seeded. Swift & Bigler entered into an agreemt, by which Swift was to put in a bid at \$1 20 cubic foot, and Bigler was to bid higher, and ben the contract was awarded. Swift was to take Bigler's timber and allow him contract price.— Regular dealers in live oak put in bids upon the spectation that they would be granted until the of February, 1859—the usual time being d two years. Their bids were \$23,000 lo an Swift's. Contracts were made with them ugust, 1858, and they promptly went to work to et the timber. In September their contracts are cancelled by the Secretary, and all of them en to Swift. This was done in violation of and merely to favor Swift.

That the navy yards have been turned into olitical machine. In April, 1857, Mr. Toucey and the Democratic members of Congress from New ork city entered into an agreement that the patonage of the navy yard should be divided among the members. The master-workmen and the orkmen were apportioned off, and in some cases we offices made. The correspondence of mem-ers of Congress is given, and a detailed state-tent of quarrels, thefts, and various abuses. The umber of men in the yard was increased over leven hundred from May to November last. A eek before the election, Commander Rootes, the ctive officer of the yard, was detached withoutice, and ordered to Washington. Upon t vy yard at Brooklyn the statements substanally agree.

The contracts for machinery for the vessels built under the act of June, 1858, were improperly let. While the proposals were pending, Col. Patterson wrote a letter to the President, urging that one of the contracts should be given to Merrick & Sons; that they employ a larger number of men, and are old Whigs in favor of the re-election of Col. T. B. Florence; that the result would place his election beyond a doubt. By an indorsement of his letter in the hand writing of the President, it was submitted to the Sectory of the Navy, and the award was made to Merrick & Sons. The awards generally were determined upon the vote of D. B. Martin, Chief Engineer, and he was largely interested in the

The River was falling tolerably fast yesterday, with scant 29 feet water on the falls last evening. During the previous 48 hours the river had fallen two feet six inches, and was falling last night at the rate of an inch per hour. The decline altogether, since it commenced falling, has been three feet three inches up to dusk last evening. The weather has been delightfully clear and pleasant, Saturday being an exceeding bright day—an un-Saturday being an exceeding bright day—an un-usual thing this winter.

Water street is still inundated, though we ex-

pect the sidewalks from Second to Fourth streets will be visible this evening, and no doubt the Second street bridge will be entirely above water this morning and the Fultz wharf, the most de-sirable landing for boats. On the Third street bridge, last evening, there were five or six feet of water, and parties in yawls passed over the

railing.

As the river recedes, an immense deposit of mud is left on the streets, sidewalks and house floors, and it behooves the people to be on hand stirring up the water with mops and brooms, so as to sweep off the mud with the receding waters. as to sweep on the mud with the receasing waters.

By a little timely exertion much trouble can be saved and a vast accumulation of mud removed, and we hope Capt. Diller, the wharf master, will take the hint. Last evening we noticed, on the first floor of one of the inundated buildings, a deposit of at least four inches of mud.

The river at Commingation of the fall tolerable fact and my a Saturday it was falling pretty.

bly fast, and up to Saturday it was falling pretty fast at Pittsburgh. It then commenced rising again, with over nine feet water in the channel. That rise, however, can have little or no influence

From the officers of the Dove, from Kentucky river, we learn that that river was rising Satur day, at Frankfort, at the rate of three inches per day, at frankfort, at the rate of infect house per hour. The rise was caused by the heavy and sud-den rains of Friday night. The river, however, had fallen considerably prior to that time, ena-bling the Dove to go under the bridge, and we think the last rise cannot raise the Ohio any here. The Telegraph got in last night at 9 o'-clock, and to Joe Scott, the attentive mail agent,

we are indebted for the latest news. The officers of the John Gault, from Nash ille, report the Cumberland falling, with only 25 eet water on the shoals.

To Capt. Reeder, the attentive clerk of the John Gault, we are indebted for a manifest. She has

heavy freight of pork and lard, and is discharg-ng at the foot of Ninth street The John Gault is the regular packet for Thursday evening, and will be ready to day for freight. The Persia arrived here yesterday, loaded wn with the freight of the James Wood, for St. ouis. The latter goes on the ways at Madison. The Commerce is due from Pittsburgh, ith a load for this port.

MAIL PACKET FOR MEMPHIS .- The Moses McLel lan, Capt. Erwin, is the regular mail and passer-ger packet for Memphis to-day. She starts at 4 o'clock, from the upper wharf, taking passengers and mail to thirty-two landings on the ower Ohio, to Cairo, and landing at all points clow to Memphis. The officers are courteous and ttentive, the clerk, John Woolfolk, being always in the office to attend to passengers and shippers To Messrs. Pendleton & Woods, clerks of Dove, from Kentucky river, we are indebted aifest, including tobacco, hemp, pork,

bagging and rope.

FOR THE EAST.—The Telegraph No. 3, the longarmed champion of the Ohio, is the mail and passenger packet for the East, at noon to-day. She travels at railroad speed, and connects with all the early trains going East. The mail boat will be found at the foot of First street, where consignees are requested to send for their goods.

BOA'S DUE.—It will be seen by our exclusive dispatches from Evansville Saturday night, that the Crescent City, J. H. Done, Maria Denning. Die Vernon, Bracelet and Shenango, had all passed that po mt, and were due last night.

The Bay City and Nat Holmes are due from Pittshurch to day, and the Baltic is over due from

Pittsburgh to-day, and the Baltic is over-due from New Orleans.

The Baltic was in New Orleans Friday week, with the "New Albanv Silver Band" on board.—She is advertised for New Orleans this evening, and if she arrives in time to discharge her cargo, Capt. Meekin will be sure to go. Capt. Meekin will be sure to go.

Both the Arkansas and White rivers were rising at the last dates, which, together with the flood from the Ohio, will be likely to run the lower Mississippi over its banks in many places. THE COAL FLEET ARRIVING.—Yesterday about moon a pair of coal flats, from Pittsburg, belonging to McClusky & Co., passed over the falls—the avant couriers of the fleet of broad horns for the south. They were under the guidance of Jack Murray. To-day a vast number will be due of the fleet of 65 pair that started on the run. Among the number expected last night were six or eight pair for the Messrs. Watson, for New Orleans.

agedy in Washington-U. S. District Attornet Key Killed by a Member of Congress-Intensity

Washington, Feb. 27 .- The community was hrown into intense excitement to-day, by the cilling of Philip Barton Key, United States Disrict Attorney for the District of Columbia, at the hands of Hon. Daniel E. Sickles, member of Congress from the Third District, New York.—According to report, Mr. Sickles becoming coninced of the truth of certain scandalous rumors About 2 o'clock this afternoon he proceeded from his residence, near the President's house, to the sou the ast corner of Lafayette Square, in the same neighborhood, where Key was engaged in conversation with Mr. Butterworth, of N. Y. Me charged Key with having dishonance him each a conversation with Mr. Butterworth, of N. 1. Is charged Key with having dishonored him, and testroyed his domestic peace, and immediately that him with a revolver—one of the balls entering the left side of the body, and passing through corresponding point on the opposite side, ging under the skin. Another shot took effect n the right thigh, near the main artery. Key, in alling, implored Sickles not to kill him. The bird shot was in the right side, glancing from the

ody and bruising it; of which wounds death sand brising it; of which wounds death ensued in a few moments.

The body was taken into the National Club (Rouse. The coroner immediately summoned a larry, and the inquest was continued for several mours. A verdict was rendered, merely stating that the death has a several form. hat the death was caused from the effect of pisto hots, as above stated, fired by Hon. D. E. Sickles owds of persons gathered in the vicinity of the Club Hause during the day, anxiously inquiring After Mr. Sickles had killed Mr. Key, he repaired to the residence of Attorney General Black, here he was advised to deliver himself into the ands of the officers, who subsequently conveyed im to jail, to which he was committed for furth r examination to-morrow.

The facts which led to the tragedy will then, robably, judicially transpire.

The inquisition of the Coroner was merely with eference to the causes which produced the death. The Mexican Question Washington, Feb. 27.—The telegraphic announcement that the English and French squadrons were in hostile attitude before Vera Cruz, favoring Miramon, is not believed here, for the reason that President Juarez and the members of his cabinet, in letters received in Washington un-der date of Feb. 7th, state distinctly that they had made definite arrangements for the settle-ment of the custom duty, and at the time there was no other question at issue. It is known that Senor Mata, Minister of the constitutional gov-ernment, has full power to make a treaty in the event of his reception as such by this Adminis-tration.

As the President, in his annual me ssage, exf settling the pending questions with Mexico is brough the constitutional government, some n the person of Mata, but there may be sufficient casons for the delay, whch according to report, will not much longer continue. 1859. SPRING! 1859.

OUR stock for the approaching season offers inducements to purchasers visiting our market, which have never been equalled hitherto.

In consequence of the demise of our late partner, Mr. 8. Lœwenthal, and in order to come to a clear settlement with the administrator and helrs of Mr. Lœwenthal's estate, we have been obliged to dispose of our entire stock on hand, and start afresh with a selection of SPRING AND SUMMER GARMENTS
